

WEEKLY CROP BULLETIN

Light Rains Put Ground in Shape for Plowing.

FROST IN SOME LOCALITIES

Late Corn Matured and Promises Fair Yield.

Oklahoma City, O. T., Sept. 22.—Light to moderate rains occurred on the 16th, 18th and 19th, which placed the ground in good condition for plowing; the days and nights were cool and frosts occurred on the 16th, 17th, 18th and 19th in localities, but no damage was reported.

Early corn cutting continues in localities; late corn is matured and promises a fair to good yield.

Cotton is doing well, but has been damaged some by boll weevil worms and sharpshooters in portions of Indian Territory; very little shedding has occurred during the past week; the cool weather has retarded the opening of the bolls, but picking is in progress with a fair crop in sight, and some cotton has been marketed.

Hay is about completed with very good yields of fine quality, secure in good condition.

The third cutting of alfalfa continues in some portions of Oklahoma.

Broom corn harvest is well advanced.

Cane and kafir corn are being cut with fair to good yields; late kafir corn is doing well.

June corn, castor beans, and late potatoes are doing well; turnips are coming up and some are up to a good stand.

The recent rains have placed the ground in fine condition, except over the northwest portion of Oklahoma, where it continues dry, and plowing and seeding are well advanced; some wheat is up to a fair stand; the work is generally being pushed.

Pastures and range grass are greatly revived by the rains the early part of the week and are now green and in good condition, and stock is doing well.

Fruit is being gathered; the apple crop is large but peaches are making but fair yields.

Sweet potatoes are in good condition and giving good yields.

Following are the reports from the different portions of the section by counties:

Osage and Pottawatomie—Corn cutting well advanced; cotton opening slowly; plowing continues; some wheat already sown; cane being cut; kafir corn doing well; having well advanced; late potatoes a failure; apples making a good yield; pastures are good and stock is doing well.

Kay and Noble—Light frost 17th and 18th but no damage done; corn cutting well advanced; good yields; cotton in good condition; plowing well advanced and progressing rapidly; wheat being sown to large acreage; alfalfa sowing in progress; cane cutting well advanced; kafir corn being cut; having continuous; pastures in fine condition and stock doing well.

Grant and Garfield—Corn cutting well advanced; plowing well under way and seeding begun; kafir corn being cut with good yields; wheat coming up; having well advanced; cane being cut; fruit in abundance; pastures in good condition and stock doing well.

Kingfisher and Canadian—Light frost on the 17th but no damage; cotton improving; ground in good condition for seeding; wheat being sown; pastures improved and stock doing well.

Logan and Oklahoma—Light frost on the 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Pawnee and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

Adair and Lincoln—Light frost 17th but no damage; corn being gathered with good yields; cotton benefited, picking begun with a good crop in sight; ground in good condition and plowing is well advanced; wheat seeding begun; kafir corn and pastures benefited by showers; stock doing well.

PILES

"I have suffered with piles for thirty-six years. One year ago last April I began taking Chamberlain's Pile Remedy. In the course of a week I noticed the piles began to disappear and at the end of six weeks they had entirely disappeared. I am now a free man. I feel like a new man." George Snyder, Napoleon, O.

Best For The Bowels
Chamberlain's Pile Remedy
THEY WORK WHILE YOU SLEEP

Pleasant, Palatable, Potent, Taste Good, Do Good, No Harm. The Chamberlain Pile Remedy is sold in bottles of 50 cents and 1 dollar. Guaranteed to cure your money back.

Sterling Remedy Co., Chicago or N.Y. 533
ANNUAL SALE, TEN MILLION BOXES

Dewey—Dry and cool; cotton opening and crop will generally be light on shedding; plowing and wheat sowing retarded on account of hardness of the ground; stock showing effects of short feed.

Blaine and Custer—Light rains revived late feed and pastures but more is needed to put the ground in shape; cotton opening; late potatoes generally good; stock in fair condition.

Day and Roger Mills—Good rains over Roger Mills and some parts of Day county; put the ground in good shape; early cotton being picked; maize and kafir corn ripening, fair crop; pastures generally good; wheat sowing in progress.

Wahita and Caddo—Good rains; cotton picking in progress; pastures generally improving and stock doing well.

Comanche—Good rains and cool; plowing and wheat sowing in progress and average will be greatly increased; cotton being picked and marketed; yield light to fair; pastures improving.

Kiowa—Rains revived pastures and late feed but more is needed to put to ground in good condition; cotton picking in progress; light to fair yields.

Greer—Good rains in most portions revived late feed and pastures and put the ground in good condition for plowing and wheat sowing; stock in fair condition and will do well on improved pastures.

CHAS. A. HYLE, Observer,
Temporarily in charge.

TO SUPREME COURT.

Cases Involving Large Sums Are Before That Tribunal.

Guthrie, O. T., Sept. 22.—U. C. Guss, Frank H. Greer, Joseph W. McNeal and W. H. Gray, all citizens of Guthrie, today appeared to the Oklahoma supreme court from a decision in the district court of this county, wherein J. T. Nelson recovered a judgment against the plaintiffs in error. Joseph L. DeLoach and C. C. Horner of Guthrie represent the plaintiffs in error as attorneys, and Judge W. R. Biddle of Fort Scott, Kan., and Douglas & Douglas of Oklahoma City represent Nelson, who is a resident of Fort Scott.

Nelson brought suit to recover on an alleged contract, claiming he had sold to the plaintiffs in error ten coal company rights in Indian territory, as follows: Scouting, Tulsa, Cherokee, Wagon, Red Fork, Neyska, Concharty, Car Creek and Broken Arrow.

Nelson claimed he had sold the rights for \$3,000, of which \$500 was paid down. He claimed the plaintiffs in error never paid the balance of the purchase price, nor did they return to him the properties.

He asked judgment for \$2,500, with interest. The plaintiffs in error admitted the non-payment of the balance of the purchase price, but claim that Nelson misrepresented the properties to them.

There was also filed in the supreme court an appeal from Oklahoma county, entitled George W. Baumhoff vs. the Oklahoma City Electric, Gas and Power company, E. H. Cooke, G. W. Wheeler and G. W. Beebe. Howard & Ames represented the plaintiffs in error, and C. Porter, George Shurtel, Keaton & Weiss the defendants.

Baumhoff claims to have purchased the electric plant and franchise of the defendants for \$10,000, but that the defendants "crushed" him in that they had an opportunity to sell for a larger figure. He claims to have been damaged \$6,000 worth by the "crushing."

KILLING OF EARL DEWITT.

In Crossing a Creek the Threshing Machine Slipped and Caught Him.

Correll, O. T., Sept. 22.—Word was brought to town Tuesday morning of the killing of Earl DeWitt, engineer of Pete Harlow's threshing machine, says the Correll Beacon. The accident occurred at a crossing on the Correll creek near Wier. As near as we can gather the facts, they were mowing the machine and had to cross the creek. The banks were wet and the engine could not draw water separator up the bank, so they loosened the engine and ran up the bank. When they stopped at the top the engine was a little too far over to lurch to the separator coming chain, and in driving the engine back to couple up the banks were too slippery to hold it and it ran back, catching DeWitt between the rear of the engine and the forward end of the separator, crushing him so that he died a few hours after word. DeWitt was a man about 35 years old and leaves a wife and five children. He bore an excellent reputation in the community as a respectable and worthy citizen.

CHARTERS SOME BANKS.

Several Financial Institutions Given Permission to Open.

Guthrie, O. T., Sept. 22.—Territorial Bank Commissioner Cooper today authorized the following new banks to begin operations:

The Citizens' State bank of Pawhuska, with \$10,000 capital stock.

The State bank of Pockham, with \$10,000 capital stock.

The People's State bank of Custer City, with \$10,000 capital stock.

The adjutant for the security company which landed the Douglas State bank at Douglas was here today and paid the amount of that bank's recent losses, in the sum of \$3,000, which was stolen from the bank by unknown thieves last week. Deputy Bank Commissioner Peterson went to Douglas tonight to examine the bank prior to its resuming business.

VICTIM IS DEAD.

Silas LeClair Succumbed Last Saturday to His Wound.

Ponca City, O. T., Sept. 22.—Silas LeClair, who was shot from ambush three weeks ago, died last Saturday after making a desperate fight against his wounds, says the Courier. It has been a very difficult matter to determine the cause of the shooting, but some days ago a lawman was called for the crime and later permitted to go on the merest of conjecture. In the death of Silas one of the best lawmen on the reservation has been removed and the loss of a good man is felt by his family and friends.

BIGGEST EVENT OF ITS KIND

Many Members of the Guard Will Not Attend.

LACK OF EQUIPMENT

Territorial Encampment at Guthrie October 16.

Guthrie, O. T., Sept. 22.—Although the territorial encampment of the Oklahoma National Guard, which will be held in Guthrie from the ninth to the sixteenth of October, will be the biggest event of the kind ever held in Oklahoma there will be almost three hundred enlisted men who will be compelled to stay at home. There are two reasons for this. The inefficiency of the government appropriation and the lack of equipment.

At last year's encampment, held at Kingfisher, there were only five hundred members of the National Guard present and it was with difficulty that the appropriation was made to meet the expense. This year there are 500 members of the Oklahoma National Guard and Adjutant General Burlingame said yesterday that with the most stringent economy only six hundred privates with their commanding officers could be provided for. This will be a great disappointment to many of the members, as they feel that after drilling faithfully during the entire year that they should be permitted to attend the territorial encampment. At the last session of congress an appropriation of \$4,000 was made for the territorial encampment. This sum must be made to pay for railroad fare and for feeding of over six hundred men for eight days.

Another thing that will tend to keep some away from the encampment is the failure to receive uniforms and equipments in time. There are only 600 rifles belonging to the National Guard of Oklahoma and as no more are to be had by the 9th of next month and all who take part in the encampment must be uniformed and equipped, this will keep several away. Company A of this city has 60 men enlisted, but only 40 rifles, making about 20 men who will be entitled to participate in the maneuvers. The first regiment band will not be here, as their instruments and uniforms are not expected to arrive in time. The engineers, hospital and signal corps, which were provided for by the Dick bill, may be kept away from the same reason. When the equipments were ordered it was thought that there was time enough for them to arrive for the encampment, but overlooked for delays at factories and railroad traffic have interfered with the plans.

The encampment is expected to be the largest and most beneficial ever held in Oklahoma. The Dick bill made provision for the appointment of an instructor and inspector and Major Ripley of the 8th U. S. Cavalry, a man who is now recognized as an authority on military tactics, has been appointed to fill this place and will have charge of the maneuvers. He has been instructed to be very strict in regard to the appearance and drill of the soldiers. The camp is being planned and will be located at the ball grounds on South Second street. Major Ripley has not announced the problems that will be executed at the encampment.
